Hanex Solid Surface's 135,000 square foot manufacturing plant, located in Texas, features the most state-of-the-art production equipment. Our plant's central location allows us to maximize product availability and better serve the solid surface market with American-made products.

SHEETS AS WIDE AS TEXAS

Our new production equipment has the ability to produce solid surface sheets up to 60 inches wide. These wide sheets allow for a much higher degree of flexibility and efficiency in fabrication and installation.

Select uniform colors available in 60" width. Wide sheets for most available colors require custom orders and minimum order quantity. Please consult your sales rep or customer service for details.

ELEVATE LIFE™

At Hanex Solid Surfaces, we are driven by the desire to make products that enhance life's journey. We continually push the boundaries of what is possible so we can meet the demands of today's diverse surfacing applications in homes, schools, healthcare facilities, hotels, restaurants, retail stores and more.

Our goal is to enrich the lives of the people who live, work and play in those spaces by understanding what really matters, beyond aesthetics alone. Or quite simply, Elevate Life.

COLOR PORTFOLIO

2022

NEW FROM HANEX

CASCADE + VENATO

BRINGING A NEW LEVEL OF WARMTH AND SOPHISTICATION TO THE HANEX COLOR PALETTE.

The Cascade Color Palette features six designs all with subtle movement. Designed with elegance in mind, Cascade brings a level of refinement to any project.

The Venato Color Palette brings bold and striking veining to the forefront. With its distinct designs, Venato is sure to enhance the look of any space.
