NEW FROM HANSTONE QUARTZ

INSPIRED BY NATURE, DESIGNED FOR YOU

EARTH ART

At Hyundai L&C, we are dedicated to creating a new lifestyle culture with the simple mission of creating satisfied customers and a more abundant world. We thank all those who have helped make this possible by having our HanStone, or Hanex surfaces a part of their world. Today, we bring even more beauty to your spaces with our newest designs, EarthArt.

Inspired by nature and the beauty of art, EarthArt is a true expression of who we are and what our products represent. The complexities of mountain ranges, subtleties of tone and texture, and movement of wind and brush all blend to create a single theme, EarthArt. With that in mind, we are proud to introduce our newest designs in the collection: The Opimo collection, the Calacatta series, and the Marquina series.

Coming from the Latin word 'Opimus', the Opimo Collection presents the abundance of nature's variety and depth. Using the latest technology, we have created a groundbreaking new chapter in quartz surfacing. By utilizing this technology, we capture depth and translucent qualities of quartzite in a manner that has never been seen in quartz surfacing-the natural color variations in each new design offer limitless possibilities to any design environment.

Inspired by the famous Calacatta marble, HanStone's Calacatta series is designed to portray the look of the most expensive styles of the Calacatta marble with the benefits of quartz. With its white base tone and nature-resembling vein patterns, HanStone's Calacatta series will be a beautiful addition to building the space of your dreams.

Inspired by nature's elegance and explosiveness, the Marquina collection is a perfect blend of something new and something contemporary. Its bold vein patterns resemble the dynamics of high mountain peaks, and its gold and grey vein colors portray the golden sunrise. The combination is sure to offer a modern and confident design.

Today, we invite you to become a part of this new chapter, and with you, we are raising the bar on surfacing design.

A person stands on a large, rounded rock in the foreground, looking out over a vast, hazy mountain landscape. The mountains are covered in dense green forests, and the scene is bathed in the warm, golden light of a low sun, creating long shadows and a soft glow. Several sharp, rocky peaks are visible in the mid-ground and background.

ON QUARTZ DESIGN

EDEN

Clean and sophisticated, Eden is abundant with natural beauty. With its layered pattern and subtle movement, Eden reflects the clean nature of a fresh snowfall.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

FULL SLAB

ELBA WHITE

Elba White is a beautiful blend of warmth and depth. The translucent quality is unique to the Opimo Collection. Layers of cool and warm build upon each other mimicking the look of an iceberg.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

FULL SLAB

LE BLANC

French for 'The White' - Le Blanc pulls inspiration from the French Alps with distinctive stone colored veining and a beautiful white background covering the full slab.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

MATTERHORN

Bold and strong, Matterhorn mimics the beauty and majesty of this famous mountain with its snow swept peak rising from surrounding glaciers.

FULL SLAB

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

PATAGONIA

Patagonia captures the limitless colors of this mountainous region with its high stone peaks and glacial fjords. The blend of grey tones and translucent qualities in Patagonia are a perfect combination, balancing the cool and warm tones found in nature.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

ON QUARTZ DESIGN

CALACATTA GOLD

Striking by design, Calacatta Gold's sweeping veins stand proud against its solid white base. Balanced and bold, Calacatta Gold adds an air of confidence in any space.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

FULL SLAB

CALACATTA EXTRA

Bold by design, dare to make a statement with Calacatta Extra. Dark veining stands strong against a radiant white base; their contrast, elevating the other to new levels.

FULL SLAB

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

CALACATTA MONT

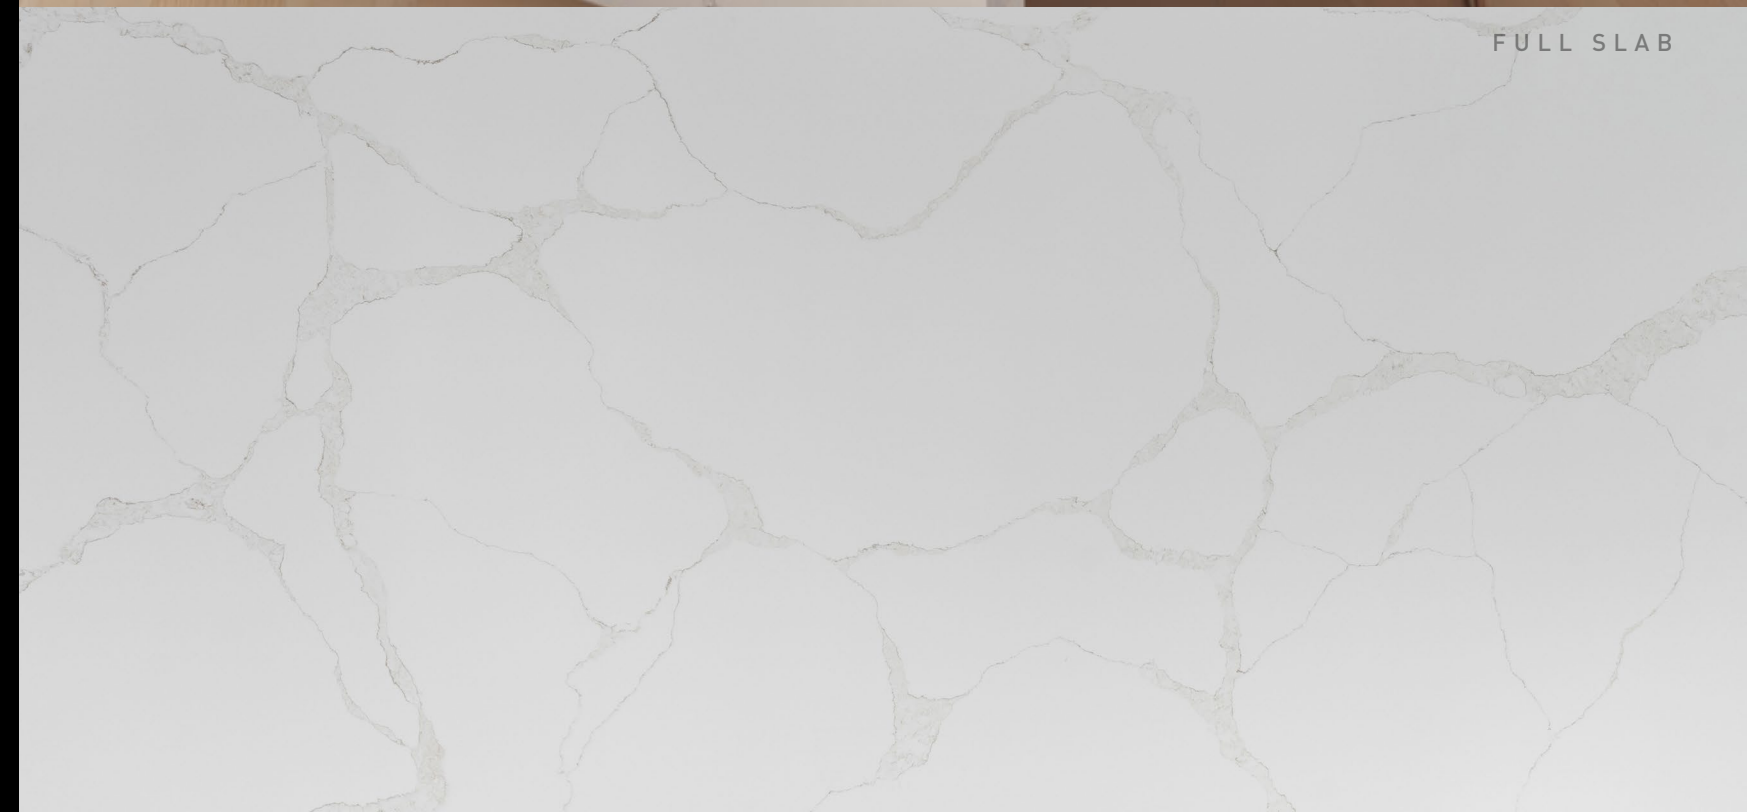

Calacatta Mont looks to the Alps for inspiration with its irregular warm veining that echoes the mountains - offering endless design opportunities.

SLAB SIZE: (JUMBO) 130" X 65" | FINISH: POLISHED | THICKNESS 2CM & 3CM

FULL SLAB

CALACATTA VENATO

Bands of earthen hues stretch across a base of layered white tones, resulting in a moment rich in depth and complexity.

HANDLES LIFE BEAUTIFULLY

Meet HanStone’s state-of-the-art quartz surfaces made of natural quartz — one of nature’s strongest materials. Offering beauty tough enough to stand up to everyday life. With classic hues and beautiful movements, HanStone Quartz celebrates the natural world around us, while being on trend and appealing for all interior aspirations.

NONPOROUS

Many interior surface materials harbor unwanted microorganisms. With routine cleaning, HanStone’s nonporous surfaces inherently will not harbor or promote bacteria, mold, or mildew growth.

SCRATCH RESISTANT

Composed mostly of natural quartz that registers a 7 on Mohs hardness scale [diamonds are a 10], HanStone Quartz surfaces are exceptionally scratch resistant. However, no surface is 100% scratch-proof, so cutting or dragging heavy, sharp objects directly on the surface should be avoided.

STAIN RESISTANT

Unlike granite and marble countertops, HanStone Quartz surfaces are nonporous, impermeable to liquids, and highly resistant to stains from common culprits like wine, coffee, vinegar, and makeup.

ETCH RESISTANT

A sliced lime can be devastating to many natural stone surfaces. Not so for HanStone Quartz, which is designed to handle foods and common household cleaners known to etch surfaces.

HEAT RESISTANT

Made from one of nature’s most heat resistant materials, HanStone Quartz surfaces are highly resistant to high temperatures. To avoid thermal shock, do not place searing hot objects directly on the surface.

EASY TO MAINTAIN

HanStone Quartz surfaces require no sealants, waxes, coatings, or routine polishing. Clean with a damp cloth, mild liquid detergents, or non-abrasive non-bleach cleansers. Wipe dry to avoid water streaking or surface haze.

DURABLE

Designed to handle life’s normal wear and tear, HanStone Quartz is composed of natural hard quartz crystals to produce one of the most durable surfacing materials on today’s market.

ECO-FRIENDLY

HanStone Quartz offers categories for LEED points and is GREENGUARD Indoor Air Quality and GREENGUARD Children and School certified. Our North American plant recycles 100% manufacturer wastewater, repurposes solid waste, conserves energy and uses advanced air purification systems.
